

# DONATE YOUR EXCESS INVENTORY TO GOODWILL!

## The IRS allows companies to take a huge tax write-off when donating excess inventory.

We're talking about carryover merchandise, closeouts, irregulars and misprints - items your sales and warehouse managers call JUNK.

Granite Bay Sales Recovery Services is an **exclusive agent of Goodwill Industries International**; a recognized 501(c)3 Non-Profit Organization. Together we can help your company's bottom line while giving people a hand-up to a better life of independence. Our mission is to take America's corporate waste and make a difference in communities across North America.

Charitable giving is the best method of disposition for any company with excess, non-moving inventory. **Why are FORTUNE 500 companies so notably generous?** Some have their marketing department strategically use the prestige of helping people in their communities. **For many it's the federal income tax deduction.**

Besides reducing taxes, donating inventory to Goodwill Industries helps your company free up valuable warehouse space and **focus on your MOST profitable products.** What can you donate? Look for underperforming SKU's, discontinued models, colors or seconds. Minimum quantity levels apply.

**Turn your obsolete items into a huge deduction! We make it easy.**  
Visit us at [recovery.granitebaysales.com](http://recovery.granitebaysales.com) to access our online donation form or fill out and fax the information below.
